Mr. Paul F. Myers, Chief
Foreign Demographic Analysis Division
Bureau of the Census
U. S. Department of Commerce
14th and E Streets, N. W. - STOP 206
Washington, D. C.

Dear Mr. Myers:

The Office of Basic and Geographic Intelligence is in the process of developing its operating budget for FY 1969 and estimating funds required for FY 1970. As you are aware, we plan to combine the NIS supplementary sociological coverage of a more permanent nature now provided in Section 41 (Population), Section 42 (Characteristics of the People), and Section 43 (Religion, Education, and Public Information) into a single volume presentation maintained on about a 10-year cycle. This will, of course, considerably reduce the number of separate NIS sociological publications and should result in some savings in production effort. Full implementation of the plan is not expected before FY 1970; however, early transition in terms of staffing and workload planning is essential to provide for prototype production in FY 1969. Deliveries required in FY 1969 are as follows:

Single-volume (Sociological)

Colombia

South Africa

Section 41 (Population)

Dominican Republic
Malaysia
Rhodesia

Malawi
Syria
